

SAY Good bye TO 2020

Game instructions for hosting Say Goodbye to 2020.

Instruct players to have paper and pen handy. It is helpful when solving puzzles.

There is an **annotate** function within the settings on Zoom. It is a very helpful tool for the game to fill in answers. Move your cursor to the top of your screen and select **View Options**. You'll find annotate there. You'll also find a **Side by Side** option. This will place all the players over to the side and will not obstruct the puzzles. It's a good idea to instruct all players about these functions before you begin.

When the host is about to share their screen on **Zoom**, it is important to tick the **Share Computer Sound** box.

When running the powerpoint for players, put it on "**Slide Show**". You can do this by hitting the "**Slide Show**" tab in the top menu and then hit "**from beginning**". **Use your arrow** to move the powerpoint forward and to move it backwards (helpful when showing the hint slide and then returning to the puzzle slide).

We suggest setting a timer when the game begins. Racing the clock is the name of the game. Consider adding a 30 second penalty for every hint given in the game.

Each slide will have a puzzle or task that must be performed. Tougher puzzles will then have a **hint slide**. Solution slides are provided for all puzzles.

Hosts play along without peeking at solution slides. Puzzles are designed to be a mix of difficulty levels. Don't feel badly if you need a little hint once in awhile.

If you have any questions drop us a line at info@enigmaescapes.com and we'll try to respond as quickly as possible.
